## How we deal with Corona:

- We take the **regulations** of the *Coronaschutzverordnung* very seriously and **adhere** to them **strictly**.
  - For your own and our safety: we allow about 75 people per performance, **never** will **all seats be occupied**.
  - On request we can leave the **seat next to yours free**.
  - Our **super-powerful ventilation system** is designed for audiences of 300 people and guarantees the regular exchange of air in the auditorium for fresh air.
  - What can we improve on? – **Help us ensure culture survives the pandemic**.

## Tracing data form download

For your own protection and in order that possible infection with **Coronavirus SARS-CoV-2** can be rapidly and effectively traced, and chains of infection broken, regulations require that personal data of everybody attending a performance are recorded. To minimize waiting time at the theatre you can [download the tracing form here](#) and bring it to the theatre already completed.

Thank you.
